1 Deprecate a method with a transformation rule

Library Developer

```
oldMethod
  self
    deprecated: 'Explain why'
    transformWith:
      '`@rec oldMethod' ->
      '`@rec newMethod'.

  "do something"
```
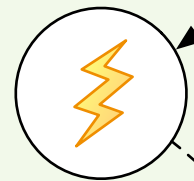

2 Call the deprecated method

Client Developer

```
x.oldMethod()
```

3 Deprecation warning

4 Client code is rewritten

```
x.oldMethod()
x.newMethod()
```

5 Execution continues

```
"do something"
```
